The Newmarket Era.

Newmarket, Friday Nov. 20th, 1861.

General Summary.

The absence of the editor to the Lower part of the Province, will account for the want of editorial matter this week. A letter, forwarded by him from Professor on Tuesday, containing some comments on the future of Canada, did not reach us until last night—too late for insertion.

The opening Lecture of the Meoban-ic Institute will be delivered by the President, A. B. Burt, on the 1st evening, (Friday,) at the Union S. S. Room—Subject, "The British Constitution." Lecture to commence at 7 o'clock.

Fire.—A destructive fire occurred on Friday evening last, by which the dwelling house of our townsmen, Mr. Michael Marlow, was entirely destroyed; we believe he was insured to a considerable amount.

Mr. Allouin, who also resided in a part of the house had much of his property damaged and lost.

The Fire and Hawk and Ladder Companies were promptly on the spot, but for lack of water could do little.

This, by the way, shows the necessity for Water Tanks. A Subscription was put on foot by the Revere the night of the fire for the benefit of the sufferers, and a large sum was collected.

Yours, most respectfully,
W. W. Moore.

the Revere to take legal proceeding against you, to recover the money due this Township, that notwithstanding your solemn and oft repeated pledges, you would pay all costs that might grow out of a certain suit conducted in the name of the Corporation for your benefit—they had no faith or words to that effect that you would do so, if the Council gave you any imaginary cause of offence, a rather bad certificate to your integrity.

Now, sir, answer me another question and I will take my leave of you for the present. Do you know that when you talk about me finding fault with you for pocketing the difference of percentages for not fulfilling the majority of your bonds for 12 per cent., and for not lending me money, you talk the most palpable and transparent nonsense and untruth, in order to divert public attention off from your position as a public officer?—You have received scores of unmerited kindnesses at my hands, as all the members of the Council well know. I never thought of, much less harbored, any unkind feelings towards you; indeed, sir, I pity you more than I censor you, and as a still further proof of my kindness, if you will call on me I will make up a list for you where I have in many instances borrowed money, and applied it from public institutions, as well as private individuals, and you may publish them to your heart's content, which will be a great boon to a fearfully morally and mentally disordered intellect like yours. But, in conclusion, sir, I must request that you will never again assert or intuise that you ever had it in your power to be an intimate friend of mine—for, I can most truthfully assure you that no consideration within your reach could induce me to such a privilege for you—and, in view of your very bad public character, you do us a very great injustice when you assert the contrary. Accept, Mr. Editor, my regrets for troubling you so much, and believe me,

Yours, most respectfully,
W. W. Moore.

Arrival of the Boats.

Speeches of Lord Palmerston and Mr. Adams at the Lord Mayor's Banquet—Death of the King of Portugal—Acceptance of the Ministry of Finance by Mr. Fould—Commercial Intelligence &c.—

New York, Nov. 24.

The steamer *Alma* arrived at half-past six o'clock this evening, with Liverpool dates to the 13th inst. The United States steamer *James Adger* left Southampton on the 12th inst., destination unknown.

The British vessels of war were ready, to sail for Mexico but had been detained, owing to the bad weather. The French ships were to sail immediately. It is reported that it was at the instigation of England that the United States are to be invited to join the Mexican expedition. The Spanish journals talk of a probable Spanish protectorate as the result of the expedition.

The King of Portugal died of typhus fever on the 21st. The Duke of Oporto has succeeded to the throne.

TREAT BRITAIN.

A speech of Mr. Adams, the American Minister, at the Lord Mayor's has attracted considerable attention. He was a slave to the war, but very pacific toward England.

The *Daily News* says it was frank, manly, sensible, and reasonable, and must be cordially welcomed by England at large, especially as a small but active nation, doing its utmost to misrepresent American diplomacy or to create bad feelings.

The *Morning Post* says the Speech was marked by the most friendly statements respecting the good feeling of the American Government and people toward England, and was a slave to the war, but very pacific toward England.

The *Times* is characteristically sarcastic, but at the same time complimentary to Mr. Adams.

Messrs. Dudley, Manby and Yancey were guests at the great banquet of the *Establishers* Company in London. The latter spoke to a toast for the restoration of the peace in America, and, as far as cordially welcomed by England at large, especially as a small but active nation, doing its utmost to misrepresent American diplomacy or to create bad feelings.

The *Morning Post* says the Speech was marked by the most friendly statements respecting the good feeling of the American Government and people toward England, and was a slave to the war, but very pacific toward England.

FRANCE.

An important Cabinet Council was held at Paris on the 12th. It was almost certain that Pould has accepted the Ministry of Finance, his previous being retrenched in every branch. Europe will be stirred by the pacific intentions of France.

BELGIUM.

The Belgian Clergymen had been open to the King's speech, but the Minister of Finance had not. It has been ascertained that they will no longer entertain official relations with him.

RUSSIA.

Numerous arrests have taken place among the Jewish rabbiats of Warsaw.

Latest via Queenstown.

Liverpool, Nov. 14.—Cotton is firm, with an upward tendency. Sales for to-day of 22,000 bales, including 10,000 for speculators and exporters. Prices are unchanged.

CHINA.

Prince Kung has been requested by the Chinese Council to remain at the head of his foreign department.

TURKEY.

The Times, in allusion to the dissolution of the Ottoman Diet, says the Emperor of Austria is hurrying on to the great assembly whether six millions of Germans can hold in subjection thirty millions of Germans.

London, Nov. 14.—The Times, in allusion to the dissolution of the Ottoman Diet, says the Emperor of Austria is hurrying on to the great assembly whether six millions of Germans can hold in subjection thirty millions of Germans.

The British ships of war, *Senegal*, *Conqueror* and *Sancti Pauli* left on the 13th with the extraordinary battalions of marines for Mexico. The account of the convention will be presented to the Cortes in due time.

The Paris *Constituent* argues that American ingratitude enables France to witness the disruption of the Union with the utmost indifference.

COMMERCIAL.

LIVERPOOL, Nov. 12.—The sales of cotton for two days was 35,000 bales, closing at a advance of a 4 1/2 per cent.

The sales to speculators and exporters were 20,000 bales, causing an onward tendency in prices.

A law granting increased liberty to the press is published.

Marshall O'Donnell is ill.

A banquet had been given to General M'Kinnon.

AUSTRIA.

The Imperial rescript, in reply to the address of the Croatian Diet had been communicated to the Reichsrath. It expressed the wish that the Diet should forget that when the Emperor granted these constitutional institutions which circumstances rendered necessary, it was with the reservation that the unity of the monarchy might be maintained. For this reason, the Diet must be dissolved.

TORONTO MARKETS.

WEDNESDAY, Nov. 27.

The receipts of all kinds of grain on the

street market to day would foot up to about

20,000 bushels. Fall Wheat was less active than on yesterday, and we did not hear of

higher prices, of which the last reporter has

just been killed and consigned to the United

States District Court at this city, Judge

Hall presiding. It was proven that after

his first arrest and discharge, he returned

to the prison and waited until his

trial, a proceeding which delayed about

a week, to blow up the jail.

He was arrested to pay a fine of \$200, and was

imprisoned in the Eliz. County Penitentiary

for months. The result of the trial is a

speedy and timely warning to all other

engineers upon the lakes. Carelessness

in the engine room has been frequently

complained of during the past season.
